

Washington-Beaufort County Chamber Of Commerce Community Foundation

The Summer S.P.L.A.S.H. STEM Enrichment Camp will serve approximately 100 students from a low-performing, rural elementary school in Beaufort County. The 4-week camp will mitigate summer learning loss through academic enrichment, art, music, and physical education activities, as well as field trips. Students will also receive a nutritious breakfast and lunch each day. The program is supported by a 2017 Ribbon of Hope grant.
